### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claim 1 – in order to overcome the lack of antecedent basis, please replace the phrase **“the program data”** at lines 10 and 11 with the phrase **“the main program data”**.

### *Reasons for Allowance*

2. The following is an examiner's statement of reasons for allowance: claims 1-9 are considered allowable since when reading the claims in light of the specification, as per MPEP § 2111.01, In re Sneed, 710 F.2d 1544, 1548, 218 USPQ 385 (Fed. Cir. 1983), none of the references of record alone or in combination disclose or suggest the combination of limitations specified in the independent claims.

The Applicant claims method of controlling an ambient light that includes receiving main program data and additional data by a receiver (as defined at page 4 lines 8-22). The method sets a property of the ambient light based upon the additional data (as defined at page 2 lines 15-23). The additional data includes descriptive information about the main program data in the additional data (as described at page 1 line 28 to page 2 line 7). The method filters the descriptive information from the additional data (as defined at page 1 lines 22-27 and page 2 lines 24-32). The method further sets a sensitivity of the ambient light to the main program data

and setting the property of the ambient light based upon the descriptive information and the sensitivity to enhance perception of the main program data, wherein a lower sensitivity results in less changes to the property of the ambient light over time than a higher sensitivity for the main program data (as defined in page 5 line 31 to page 6 line 16), as specified in claim 1 and similarly the system of claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
